Sir:

In accordance with the duty of disclosure under 37 C.F.R. 1.56, 1.97, and 1.98, Applicant hereby brings the following information to the attention of the Examiner, which includes information cited and discussed in the specification, the International Search Report, the Written Opinion and the International Preliminary Examination Report issued in connection with counterpart International Application No. PCT/JP03/07335 of which the present application is the national stage. Copies of the International Search Report (in English and Japanese), the Written Opinion (in Japanese) and the International Preliminary Examination Report (in Japanese) were enclosed with the papers when entering the National Stage on December 10, 2004, and a copy of the International Preliminary Examination Report in English is enclosed. The Examiner is invited to review these materials to inspect the relevance indicated during international examination with respect to the documents cited therein.

Applicants also bring to the Examiner's attention the following co-pending, commonly assigned patent application:

U.S. Patent Application No. 10/477,210 to MUKAI et al. (which published as U.S. Patent Application Publication No. 2004/0214799 A1) is a national stage of PCT/JP02/04839, filed May 20, 2002, which published as WO 02/094286 A1 on November 28, 2002;

U.S. Patent Application No. 10/474,026 to MUROFUSHI et al. (which published as U.S. Patent Application Publication No. 2004/0176329 A1) is a national stage of PCT/JP02/03659, filed April 12, 2002, which published as WO 02/083149 A1 on October 24, 2002; and

U.S. Patent Application No. 10/474,027 to MUROFUSHI et al. (which published as U.S. Patent Application Publication No. 2004/0220149 A1) is a national stage of PCT/JP02/03658, filed April 12, 2002, which published as WO 02/083148 A1 on October 24, 2002.

In accordance with 37 C.F.R. 1.98 and the waiver thereof, copies of the U.S. published patent application and U.S. patent applications are not enclosed herewith. However, if a copy is needed, the Examiner is respectfully requested to contact the undersigned.

Copies of the above-noted documents, except for the U.S. Patent Application Publication and U.S. patent applications, are enclosed together with a duly completed Form PTO-1449. Moreover, a copy of Chemical Abstract, Vol. 105, Abstract No. 191524, 1986 is not enclosed. The Examiner is requested to obtain a copy from U.S. Application No. 10/477,210. If the Examiner needs another copy, the Examiner is requested to contact the undersigned.

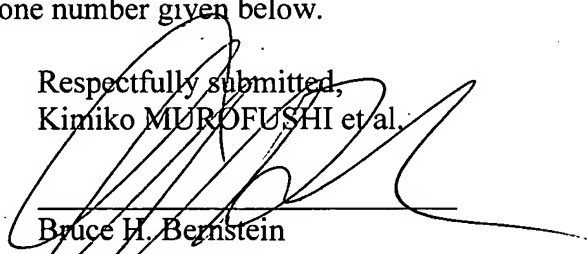

The Examiner is accordingly requested to consider each of these documents, and to make them of record in this application by initialing in the appropriate spaces on the Form PTO-1449. Applicants respectfully requests that the Examiner include a copy of the initialed Form PTO-1449 with the next communication from the U.S. Patent and Trademark Office.

Applicant notes that while this Supplemental Information Disclosure Statement is being filed more than three months from the filing date, Applicant has not received an action on the merits from the U.S. Patent and Trademark Office. Accordingly, consideration of the enclosed document is required under 37 C.F.R. 1.97(b)(3).

However, if an action on the merits has been mailed prior to the filing date of this Supplemental Information Disclosure Statement, Applicant hereby authorizes the charging of any required fees necessary for consideration of the documents cited herein to Deposit Account No. 19-0089.

If there are any comments or questions concerning this application, the Examiner is requested to contact the undersigned at the telephone number given below.

Respectfully submitted,
Kimiko MUROFUSHI et al.
